MURDER.-Coroner Walters held an inquest yesterday on the body of James H. Steele, a colored man a native of Maryland, aged 22 years—who was found lying on the sidewalk in Broad at in an insensible condi-tion and bleeding profusely. He was conveyed to the City Hospital where he died yesterday. A post-morten examination of the body was made, when a lacerated and contuced wound was found on the back part of the head. The scuil was dreadfully fractured in many places. No person was near the deceased when found, but there is every reason to believe that he was brutally murdered while on his way to a berge on board of which he was employed. The Jury rendered a verdiet that the deceased came to his death by a blow or blows inflicted on his head on the night of the 17th, by some person

BEGGARS.—In wanting down Droadway from Canal-st to Trinity Church, on Wednesday afternoon, we counted no less than tweety miscrable beggars in three before the Hospital, five before St. Paul's, four in the vicinity of Rathbun's, two before the City Hotel, and the balance sill along above. Some of them were the most pittable objects imaginable, and two-thirds of them appeared to be foreigners.

New BUILDINGS.—Mr. Marquand a two large stores on Broadway, directly opposite Rainbun's Hotel, are to have iron fronts, and as they are quite broad and some 150 feet deep, will present a fine appearance. Ad-joining them Mr. Haight is building an addition, to the spacious store now occupied-by Beebe & Costar.

POLICE.—On Tuesday last, a valuable silver watch and \$15 in money were atolen from the Franklin Baths; the following day a gold lever watch was stolen from the same place. Yesterday officers Whitehart and Coarlean of the Tenth Ward arrested a fellow named Patrick Plunket on a charge of having stolen the property. Most of the money, \$72, was found upon the accused—the watches were recovered from pawn-shops where they had been pledged for Plunket, by one John Racy, who was also arrested and committed to prison to await an examination... The dwelling house of Mr Hutton, 28 Mottest, was entered by some sneaking thief and robbed of a quantity of wearing apparel.

At a meeting of citizens of Brooklyn, with out distinction of sect or party held at Columbian Hall on Tuesday evening, a splendid gold watch was presented to Rev. Dr. Farnan, who, in compliance with the the orders of Bishop Hughes, is about to proceed to the West to pursue there his labors as a priest. Joseph Mc Murray, Erq presided on the occasion and the gift was delivered, together with a speech, by Rodney S. Church. Esq. to whom the Rev. gentleman responded in eloquent terms. Superme Court.—S. W. Jackson charged with having given and invalid mortgage, and committed for examination, we believe, by Justice Drinker, was brought before Judge Edmonds, on habeas corpus and certecrariand his discharge demanded. The counsel stated that he had committed no fraud (this was denied); no examination had been instituted, and the magistrate for the last four days, was not present to examine him. Judge Edmonds said he would postpone the matter to Monday next, in order to afterd time for the magistrate to hold the examination.

A man named Thomas McGarrie, said to be an imbecile, who had enlisted, was brought up on anbeas corpus, for discharge. It appeared he had already been before Judge Oakley, who from want of proof, the attorney not attending, remanded him Judge Edmonds, under the new principle of res adjudicate, refused to interfere, and he was sent back.

Mayon's Office.—Robbing the Dead.—A man named Dohorty, residing at the corner of Pearl and Centre atahung himself, it will be recollected, on Saturday night last, owing, it was said, to despir in not being able to abstaln from intoxicating liquor. His widow procured for him a handsome mahogany coffio, made by McCaddin, Fearl-st and also, it is said, a silver plate, intending to have him buried in the Catholic burial ground, but on inquiring she found that she could not do so, it being against the rules of the Catholic Church to bury persons in their cometaries who had committed suicide—she was therefore compelled to send him to the Deadhouse to be interred at Potters' Field. The person in charge at the Deadhouse, (appointed last year by Dr. Hasbrouck, Physician to the Aims-House,) concluded, it is said, it connection with another person, that the mahogany coffio. &c. were too good for Potters' Field, ose of them saying to the other he could get \$3 for it—so they took the dead man from the coffin and placed him in a common pine one, such as are usually given out at the Alms-House, and stowed the mahogany article away for the contemplated money-making disposal. It is said the widow, however, having a little suspicion of what might possibly occur, had instituted a watch and the removal of the tenant into his more humble 'last house' was discovered. Complaint was made to the Mayor, who entered into an inquiry and the matter is now in the hands of the proper officers.

COMMERCIAL AND MONEY MATTERS.

For Sales of Stocks, &c. see Fourth Page. THURSDAY, P. 5 The Market opened for Fancies very low, but

improved rapidly, and at the Second Board exhibited a farther improvement. Treasury Notes sold at 3‡, but went up to 3‡. The sales of stocks were larger than for some days past. The Bill Market was inactive, both buyers and

sellers being unwilling to operate until the steamer's letters were received. The quotations are nominally as before. Sterling 51 261. In Freights there was nothing of important

done. An engagement of Corn to Liverpool was made at 8d and 2s 6d, both to Liverpool and London; for Flour was under negotiation. Some inquiries were made as to the rate of Flour and Grain freights from Liverpool, as the tendency of the markets on the other side really promises to make reshipments profitable.

The Cambria brought about \$300,000 in specie.

The condition of American Stocks in London will found on the outside in Baring's Circular. In relation to the London money market Willmer & Smith's

tion to the London money market William & Smith's Times says:

During the last fortnight the value of money has been maintained, the rate of discount on first class paper having ranged about \$\beta\$ to \$\beta\$ per cent; but within these few days it is higher, and money on the Stock Exchange is not readily obtainable under \$\beta\$ per cent; for the purpose of meeting the calls on there it is much in demand. The Bank of England on the \$2\delta\$ intimated that from that date the minimum rates of discount for first class paper will be:—For bills not exceeding one month for un, \$\beta\$ per cent. \$\beta\$ per cent for bills showe one month and not exceeding two months, and \$\beta\$ per cent for bills showe one month and not exceeding two months, and \$\beta\$ per cent for bills above two and not exceeding three months. The demand for discounts at the Bank has much increased within these few days, as always happens when the rate of discount rises; and the present notice is in point of fact a virtual raising of the rates. The continued withdrawal of capital from commercial transactions, to be locked up in undertakings only prospectively productive, evidently causes anxiety in the minds of moneyed men, and they make no bendeavor to conceal their fewrs, that, if a heavy importation of Core should be again required during the next year, it will cause a rerious strain upon the resources of the country. We do not see any immediate prospect of a diminution in the value of money. Commercial credit is, however, tolerably well maintained. Concols have not fluctuated so much dering these last two weeks, the range having scarcely exceeded one half per cent.

In East Boston stock, and the price has rison rapidly. The Bostos Courier of yesterdey says:

There was a large amount of this stock sold yesterday, at the two sessions of the Brokers' Board. At the First Board, 1,100 shares were sold at prices ranging from \$23, ten days credit, to \$224, sixty days; and at the Second Board 900 shares at from \$23, thirty days, to \$224, sixty days, seller's option. The whole amount sold, is one-tenth part of the whole number of shares in the company. Eighteen months ago this stock was selling at \$14 and \$15, on a valuation of \$30. Since then a land dividend of \$10 or one-third of the property, has been made, which is now selling at \$7.5, which would make the other two thirds worth \$17.50, or \$265 on a valuation of \$30.

A new Board of Directors, however, have since been A new Board of Directors, however, have since been elected, and the goods have been revalued, and marked up to over \$40 per share. THE PARABLES OF OUR LORD.

D. the Parables of our Lord. By Richard Chemoris French, M. A. Vierr of Richen Stone. By Richard Chemoris French, M. A. Vierr of Richen Stone. Hants, Protector of Divning, King's College, London, and Examining Chaplain to the Lord Bit hop of Oxford. First American from the third Lordon edition. I vol. 870 8173.

"The parables constitutes a peraltar and most interesting portion of the teaching of our divine Lord, most wonderfully in this that they are a lapsed to, and practical lessons can be understood by, the commonest understanding, while at the same time the lofflest and most cultivated intellect cannot exhaust the richness of their wisdom and the profundity of their truth, embracing as they do the weignitiest concerns of this tife and that which is to come. In the volume of Prof. Prench all the parables are collected, compared and explained in a complete, learned and instructive mismore. It is not, as many may suppose, a volume of 4rd, didactic teaching, but while it is protound as a theological work, it is written in such an attractive style, so sho hands with illustrations of an agreeable char-
